**Localizing the SDGs:  
Tools and Good Practices from Africa**  
A Practical Webinar for UNDP Country Offices

Almost three years after the adoption of the SDGs, governments and development partners recognize that **Localizing the SDGs**, empowering local actors and making sustainable development responsive to local needs, will be key to the successful realization of the 2030 Agenda.

An increasing number of UNDP Country Offices are now embarking into the SDG Localization process to support national, regional and local governments to develop mechanisms, partnerships, platforms and strategies to effectively translate the 2030 Development Agenda into results on the ground.

If you are interested in what tools, global and regional platforms and support for SDG Localization are available to UNDP Country Offices and to learn and discuss experiences from other countries already working on SDG Localization, please join us for an interactive webinar on **Localizing the SDGs in the African Region**.

The webinar will include presentations by the **UNDP Regional Service Centre for Africa** and by our partners at **United Cities and Local Governments (UCLG)**. Colleagues from **UNDP Cabo Verde, UNDP Uganda** and the **Ministry of Local Government of Uganda** will share their practical experiences in SDG Localization implementation.

When?

**Tuesday 28 August**

**4:00 PM Addis Ababa / 9:00 AM New York, 1:15 hour**
